

Indiana has a good privacy law - I don't need businesses I have accounts with to call me except to conduct legitimate business. Unsolicited phone calls are intrusive but not as prevalent as junk/spam emails are in Indiana. Our Attorney General has done a good job of helping us be free of unsolicited phone calls. Please do not weaken Indiana's law. I do hope there will be a change in the federal anti-spam law for emails - we should always have to 'opt-in' to receive additional phone calls or emails - not opt-out. I did receive a phone call from my insurance company this week - much space on my answering machine was taken up with a recorded 'heart-healthy' message that was similar to mail I had received. I did not need this phone call. If it happens again, I will call the insurance company to ask them to stop since I am on Indiana's no-call list.

In the meantime, our law is good - please don't weaken it.

Thank you!
